Office of Legislative Counsel

Tuesday - 10 March 1959

STAT      7. Colonel Des Jarlais, at [redacted] suggestion, telephoned the undersigned stating that at General Quinn's request could the Agency make available the transcript of the DCI's testimony before congressional committees on the Berlin situation. I indicated we had not briefed any committee specifically and had only touched on Berlin in connection with a world situation briefing. However, I would check it with the DCI. Upon checking with the Director, he telephoned General Quinn who indicated he was going before the Johnson Preparedness Investigating Subcommittee tomorrow morning. After discussing the matter General Quinn appeared to believe that he would not require any assistance. The Director did authorize any materials which would be helpful to be made available. Colonel Des Jarlais was advised that the Director had spoken with General Quinn and we agreed the matter could rest unless General Quinn raised a further question.
